

Preface to Website Presentation

Welcome! My name is Monte Boesen. I am a valuation actuarial student with Assurity Life Insurance Company in Lincoln, Nebraska. I'd like to thank you for your interest, and hope you'll find this presentation valuable. Thereafter, please tell others about this website, and feel free to send me your suggestions.

I started my personal website a little over a year ago, and since I work with the president of the NAC (Marv Ehly) he is well aware of how much I enjoy building websites. Consequently, when Troy Podraza (the original NAC webmaster) approached the Club asking to be replaced, they had a willing candidate waiting. Obviously, I accepted the position, and have found the volunteer work to be very rewarding.

I have broken this presentation into three areas:

- First we will discuss what I have built
- Then we will compare it to other Actuarial Club websites.
- Finally, the brunt of the presentation is geared toward gathering your input regarding what direction, as a Club we would like to take our website.

Before you begin looking at the presentation I'd like to preface the discussion with a few points:

- Each discussion item is based entirely upon my personal understanding of the viewpoints of the Club officers, members, and the intended direction of this website.
- All documents are saved in Acrobat PDF formats for consistency and familiarity.

- When you come to the slide for the Chinese Actuarial Club Discussion Forum, please note that this type of interactive format is something I would like to incorporate into our Discussion page.
- When you come to the slide for the Actuaries' Club of the Southwest, note that the author is my brother Mike.
- **PLEASE** think about the questions posed in the "Where do we go from here?" slide. **THEN** send me your thoughts!

Thank You,

Monte J. Boesen
