

The Nebraska Insurance Federation (NIF) is an association of twenty-six insurance companies, which are either headquartered in Nebraska or have a significant regional presence in the state. The primary focus of NIF is maintaining a positive business environment for the industry in the state. A second focus is promoting careers in Actuarial Science and financial services.

- Nebraska insurance industry spending supports more than 49,000 full-time, year-round equivalent jobs with a payroll of approximately \$1.5 billion.
- The insurance industry generates more than \$270 million in state and local taxes each year.
- Nebraska insurance industry spending adds an estimated \$5.3 billion in sales each year for the state economy.
- The average yearly payroll per Nebraska insurance industry worker is \$10,000 more than the average non-insurance worker in the state.
